Sanlorenzo 102 Asymmetric 2020

Asking Price 8.075.000 €

The SANLORENZO 102 ASYMMETRIC 2020 yacht is inspired by the desire to dare and enhanced space optimization.

The Sanlorenzo yard has challenged the habits, methods, style and traditions that dominate yacht building with an entirely new design. The innovation lies in the exterior layout which now serves the requirements of the interiors, rendering them more spacious and comfortable with a more intense relationship with the sea.

This asymmetry is deliberately and very skilfully camouflaged to keep the decisive, sober lines and the slim, non- invasive superstructure provide a flawless interpretation of the Sanlorenzo style.

While we are used to seeing yacht exteriors with a symmetrical configuration with two identical side walkways – one starboard, one port – connecting the bows with the stern.

On the SANLORENZO SL102 ASYMMETRIC, though the main deck corridor remains as tradition dictates, the port walkway has disappeared, so the yacht takes on a wide-body shape, with the sides continuing uninterrupted to the flybridge. A balanced play of light and dark, with signs and elements that repeat along both sides to create a visual symmetry.

This innovative project was initiated by Chris Bangle and Zuccon International Project who decided to create a preferential walkway on one side and use the other to optimise the distributive functional elements.

This SANLORENZO SL102 ASYMMETRIC motor yacht for a sale features an interior design and exterior furnishings by H2 Yacht Design developed in close collaboration with the Sanlorenzo team.

The space that has gained most from this solution is the main deck saloon. Her interiors have been remodelled and now they feature new transparent sections, flooding the interiors with light. As well as gaining a dozen square metres of space, the asymmetry of the exteriors makes them even more similar to the lounge of a land-based villa.

The result is a 31.1-meter-long Superyacht that keeps the distinctive Sanlorenzo features. The family feeling is still there and at the same time it is turned into something really new. Something that will leave a mark.

This fine example of the new series SANLORENZO SL102 ASYMMETRIC motor yacht carries 5 en-suite cabins for up to 13 guests featuring the master cabin on the main deck and zero-speed stabilizer system for comfortable cruising. She also carries most options on the price list and crew accommodation for 5.

This SANLORENZO SL102 ASYMMETRIC yacht for sale, is powered by twin 2423 Hp MTU diesel engines, providing a cruising speed of 20 knots and a top speed of 27 knots.

Viewings are highly encouraged in Monaco.

KEY FEATURES

High-end specification (Euro 1.6M + spent on optional extras and upgrades)

Very lightly used / low hours

One private Owner since new, VAT paid

Interior design and exterior furnishings by H2 design

Underway and zero speed stabilizers

5 Cabin layout, Master on main deck

Features.

1 ° MTU 16V 2000 M96 (Engine 1)

Type: Inboard Power: 2423 hp

Fuel Type: Diesel

Drive Type: V Drive

2° MTU 16V 2000 M96 (Engine 2)

Type: Fuel

Type: Drive

Power: 2423 hp X 2

Accommodations

Cabins: 5

Heads: 6

Warranty: 5 Years Planning Monaco

Shape: Deep V

WILLIAMS SportJet 520 - 200 Hp SEADOO GTX 200 Jet-ski

BROKERS COMMENTS

This is the sixth hull in the acclaimed SANLORENZO 102 Asymmetric series, delivered in June 2020. Offered for sale on behalf of her original and most experienced owner boasting a high-end specification with an excess of Euros 1.6 million spent on optional extras over and above the standard build specification.

This yacht is in immaculate condition and has enormous appeal.

This 31.1m flybridge yacht was ordered for this client and built under the close supervision of the experienced captain and independent surveyor. She has only been lightly used privately

with approx. 600 hours on her main engines. She features an interior design and exterior setup by H2 Yacht Design developed by director Gianluca Sist, in close collaboration with the Sanlorenzo team.

Boarding the yacht on the main deck aft, welcomed by an alfresco dining area that easily converts into a large day bed lounging pad. The entire aft deck is shaded by the overhang of the sundeck above and can be sheltered from the elements on the stern and sides with privacy mesh screens. Moving forward into the main deck salon through the automatic sliding glass doors, there is a day bar and buffet to starboard, the interior dining area to the port facing the floor-to-ceiling windows, and a large seating area to starboard facing the 80" TV/ cinema screen. Also to starboard are a set of opening glass doors that lead onto the side deck and to the fold-down balcony/terrace with loose furniture.

The interior décor with its mix of coral tones on off-white and grey fabrics and white lacquered furniture, coupled with brown leathers and bronze details in contrast with the stained oak parquet flooring and white oak ceiling provides a chic fresh Mediterranean atmosphere that is found throughout the yacht's interior and exterior.

The Master cabin is located on the main deck forward, with a dedicated walk-in closet to starboard opposite the bathroom which benefits from underfloor heating, a steam room in the marble shower, and a separate water closet. In the full-width cabin there is a large opening window to port above the vanity/ work desk, a king size bed amidships, and a door to starboard giving direct access on to the owner's private foredeck terrace which boasts a U-shape seating/ dining area along with a large sun pad over the bow. The entire foredeck area can be sheltered from the sun by awnings that are supported by stainless steel poles.

Stairs down to the four very well-appointed and generous guest cabins are located in the foyer forward of the main saloon which also has a guest powder room. There are two VIPs aft each with ample wardrobe/ storage space, a vanity desk, and luxurious en-suite bathrooms with separate water closets. The starboard forward cabin has been appointed to accommodate up to four bunk beds also referred to as the children's cabin. The port forward cabin is convertible from a twin (with extra Pullman) into a further VIP (sliding bed system). These two forward cabin's bathrooms have been installed with a toilet and a bidet. All guest bathrooms have underfloor heating.

The Owners and all guest cabins along with the main saloon are equipped with an independent home cinema/ linked to the entertainment system (Sat TV, internet, Apple TV, etc). The domotics throughout the boat (TV, music, lighting, curtains, blinds, etc.) are all touch-controlled from individual iPads found in each zone.

The galley is on the main deck to starboard and is fully equipped with top-of-the-range appliances, there are dedicated crew access to the deck, and a staircase down to the crew quarters which accommodates up to five in three cabins all with their own bathrooms. The crew mess with U-shape seating has storage, a fridge, a TV, and professional laundry machines.

The sundeck is home to expansive custom-made teak cushioned sunpad, a sofa with a loose chairs arrangement, and a large round dining table comfortably seating 10 people all sheltered by a hard top that has an opening blade system. There is a large buffet to port with a fridge, ice maker, and a sink. Forward of the sundeck to starboard, there is the helm station with mirrored seating to port. There are opening doors on both sides of the sundeck giving direct access and walk through to yet another large sunbathing area forward of the wheelhouse and walkway down to the foredeck on portside.

The vessel also carries a 520 Williams Sportjet tender on the aft bathing platform, and a three-seater Seadoo GTX 200 Jetski in the aft garage which is also home to numerous water sports equipment and toys.

She is also equipped with at-anchor and underway stabilizers and bow and stern thrusters.
